💼 Experience

Meon Technologies Private Limited

Frontend Developer

09/2025 – Present

- Develop responsive React.js interfaces and integrate REST APIs and business workflows into web applications.
- Build and integrate API-driven application features using Node.js and Express.js alongside React.js frontends.
- Work with MongoDB and SQLite for application data while implementing validated forms and dynamic UI components.
- Implement authentication, API integrations, and end-to-end workflows across client and personal projects.
- Collaborate across frontend and backend requirements to deliver responsive, maintainable web applications.

📁 Projects

Portfolio Website

Tech: React, Vite, Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB, Gemini API | Full Stack

- Built an Express + MongoDB backend with REST APIs, validated contact form with email alerts, and rate limiting.
- Implemented a Gemini-powered AI assistant with saved chat sessions to answer visitor questions about my work.
- Built a private admin dashboard with JWT authentication, traffic analytics, message inbox, chat logs, and an AI daily briefing.
